

PRODUCT NAME

CREATUBE 360 (2000MM)

DESCRIPTION

The creaTUBE 360 is an advanced LED tube light, allowing you to create a variety of shapes and delivering impressive effects.

Thanks to its unique design, creaTUBE emits light with a full 360-degree angle, presenting intense colors from a rich RGB palette. Almost unlimited configuration possibilities are achievable thanks to the 26-pin orbital connector, allowing the tubes to be connected at different angles. The mounting of creaTUBE is flexible - it can be placed both on beams and on floor stands, with the only limitation being your imagination!

The tubes connect to each other via DMX protocol and are controlled via art.net protocol via a dedicated controller.

The creaTUBE 360, with a length of 2000 mm, is perfect for trade show lighting, product highlighting, on stages or for decorative purposes. Discover the potential of creaTUBE by taking advantage of SQM Rental House's rental offer!

SPECIFICATIONS

Technology	5050RGB
Diode type	LED
IC driver	UCS1903
Length (mm)	2000
Beam angle (°)	360
Supply voltage	24V DC
Diameter (mm)	40
Max. power consumption (W)	24
Protection Level (IP)	IP65
Connectors	1 x DMX (4-pin)
