## PRODUCT DESCRIPTION

SQM Rental House recommends you TF6538UHSC-B1AG - a 65-inch Iiyama open-frame monitor that offers phenomenal UHD 4K native resolution (3840x2160) and 50 multi-touch points. The monitor uses a high-quality IPS panel and a 5-millimeter anti-reflective coating with 178°/178° viewing angles, thanks to which the refraction of light is eliminated - perfect image quality will now be visible from any position.

Iiyama uses capacitive touch technology, and the TF6538UHSC-B1AG offers up to 50 points that respond to touch through stylus, latex glove and finger. The touch operates on the Plug & Play principle, is HID compatible and requires the Windows or Linux operating system. Apple products require a driver that supports one touchpoint.

The model has four digital signal inputs (2 HDMI, DVI-D and DisplayPort connectors), analog VGA port and control connectors. The monitor has two built-in 8W speakers. Iiyama works great in both horizontal and portrait positions. It also has VESA-compliant mounts (600x400mm), thanks to which the screen can be hung on the wall.

TF6538UHSC-B1AG is a monitor highly resistant to adverse conditions - the level of protection against dust and water is IP54 (on the front), and the housing made of metal ensures solidity. The monitor has a built-in kiosk mode that blocks the access of important data to unauthorized persons. The great parameters of the Iiyama TF6538UHSC monitor ensure that it's a perfect option as an interactive information kiosk in shopping malls and other digital signage solutions for 24/7.
