

PRODUCT NAME

AMAZON FIRE TV STICK 4K

DESCRIPTION

The Amazon Fire TV Stick 4K is a compact media player that lets you watch content in 4K quality - just plug it into your TV via the HDMI port.

The Fire TV Stick 4K is powered by a quad-core MTK8695 + MT7668 chipset (SoC) clocked at 1.7GHz. The player supports Dolby Atmos (EC3_JOC), Dolby Vision, H.265 (HEVC), or HDR10+ and HLG technologies. Lossless streaming of content in excellent quality is possible thanks to Bluetooth 5.0, WiFi 802.11 a/b/g/n/ac, and 2x2 MIMO. The player also allows you to stream content directly from your AV device.

The Stick is equipped with an HDMI port and a micro USB port for charging the device.

The Fire TV Stick 4K comes with remote control, which will allow you to control the player using, for example, voice commands (Alexa). The maximum supported resolution is 4K (3840x2160) at 60fps.

Rent the Amazon Fire TV Stick 4K media player today at SQM Rental House!

SPECIFICATIONS

Category	Accessory
Chipset	1.7 GHz Quad-Core Mediatek MTK8695 + MT7668
Storage (GB)	8
Memory	1.5GB RAM DDR4
