Width (mm)	62.3
Height (mm)	44.9
Depth (mm)	33
Net weight (kg)	0.116
Set contains	GoPro charger
Set contains	GoPro 3.85V battery
Set contains	Micro SD 128GB card
Set contains	3 x GoPro 3.7V battery
Set contains	GoPro holder
Set contains	USB-C cable
Set contains	GoPro Black housing

### PRODUCT DESCRIPTION

GoPro HERO7 Black is a waterproof action mini-camera that records videos in 4K resolution at 60 frames per second and is able to take a picture in a fantastic resolution of 12 megapixels - available for rent at SQM Rental House straight away!

HERO7 is the first camera in the HERO series that is equipped with HyperSmooth technology - thanks to this it's possible to obtain an extremely stable and smooth image, without the need to use a gimbal. The camera itself predicts movements and then corrects its vibrations, thanks to which full stabilization is ensured. In addition, HERO7 is waterproof (without the need for housing) up to a depth of 10 meters and highly resistant to damage.

The HERO7 camera offers the SuperPhoto mode, which adjusts the tone, noise reduction parameters and uses HDR mode to ensure phenomenal image quality. Time-lapse movie recording with TimeWarp function guarantees great movie quality with stabilized image and 30x speed, and recording in eight times slow-motion at 1080p resolution and speed of 240 frames per second will guarantee the capture of every smallest detail.

In addition to the features mentioned above, HERO7 offers movie recording and photo taking in a vertical position. Stream of the high-definition movies and the ability to directly share the movie on Instagram allows you to simultaneously enjoy the recorded moment with others.

The device can be controlled by voice commands, and the intuitive touch screen also ensures that the HERO7 camera is easy and comfortable to use. High-performance HEVC compression will reduce the size of a large file by half, so you don't have to clean the MicroSD card often.

GoPro HERO7 has a USB 3.0 type C input, a Micro HDMI Type-D output, and a MicroSD card slot that is limited to 256GB. The camera is powered by a 3.85-volt, replaceable lithium-ion battery with a capacity of 1220mAh. GoPro HERO7 is a fantastic option to record the most important events. SQM Rental House recommends this product.
