

PRODUCT NAME

APART CM4T-W

DESCRIPTION

Apart Audio CM4T (now Biamp) is a passive ceiling speaker in white color, which includes a 4-inch transducer with a paper-coated membrane. CM4T-W is designed for 100-volt installations, transformer power taps are 1.5-3-6W, and the nominal impedance value reaches 16 ohms.

CM4T-W is a speaker that reproduces great quality sound in the 90-19000Hz range. The efficiency reaches 88dB (from 1 meter at 1 watt), and the maximum sound pressure level (SPL) is 103dB.

Apart Audio, in the case of 100-volt installations, recommends setting the transformer power tappings to 1.5 and 3 watts during non-challenging operation, e.g. background music. To achieve high SPL, power tapping must be set to 6W.

The classic design of CM4T-W with a steel housing and an aluminum cover is emphasized by IP50 level, which provides protection against dust and increased humidity.

The diameter of the CM4T-W mounting hole is 105mm, the outer diameter is 135mm, and the depth reaches 74mm. The SQM Rental House rental also offers you the Apart Audio CM4T speaker in a black version.

SPECIFICATIONS

Speaker category	Ceiling speaker
Speaker type	Passive
Max. SPL (dB; @1m)	103
Frequency range (Hz)	90 ~ 19000 (-10dB)
LF transducer	1 x 4"
Nominal coverage (h/v; °)	-/180
Diameter (mm)	135
Depth (mm)	74
Net weight (kg)	0.725
