

PRODUCT NAME

SENNHEISER ME 4 (WORKS WITH EW-D)

DESCRIPTION

The Sennheiser ME 4 is a clip-on condenser microphone that is compatible with the EW-D series of transmitters, among others.

The ME 4 is designed for vocal applications in noisy environments. The condenser capsule with cardioid characteristic guarantees high resistance to acoustic feedback. The microphone is equipped with a TRS connector on a 3.5-millimeter jack, which allows the microphone to be connected to bodypacks.

Available for rental at SQM Rental House, the ME 4 microphone is rented together with the MZQ 02 clip and MZW 4 wind shield.

SPECIFICATIONS

Device type	Microphone
Max. SPL (dB; @1m)	120
Frequency response (Hz)	80 ~ 16000
Sensitivity	40mV/Pa (1kHz)
Signal-to-noise ratio	31dB
