

PRODUCT NAME

SAMSUNG ML55E

DESCRIPTION

SQM Rental House recommends the 55-inch Samsung ML55E - a professional, frameless monitor with a hybrid Mirror display, which combines a high-quality screen and a mirror with a reflectivity of 55%.

The display with a great, frameless design, 90% of transparency and 55% reflectivity of the mirror make the presented content more realistic - the consumer is thus able to combine the advantages of great screen quality with a mirror.

Another advantage of ML55E is the proximity sensor that effectively detects the presence of the customer at a distance of 0.7 to 1.5 meters and smoothly switches from display mode to mirror mode. The whole is perfectly complemented by the MagicInfo Smart Signage system, thanks to which you can easily and quickly manage content and set the time of displaying it from the position of a mobile device. The high performance of the ML55E monitor is provided by a quad-core, 8GB processor.

The monitor is equipped with 400x400mm mounting holes that are compliant with the VESA standard.

All this makes Samsung ML55E ideally suited to the system of interactive content display.

SPECIFICATIONS

Panel	D-LED BLU
Diagonal (in)	55
Standard	Full HD
Resolution (px×px)	1920x1080
Width of viewable area (mm)	1209.6
