

PRODUCT NAME

MIPRO BC-100

DESCRIPTION

The BC-100 is a Mipro microphone base, which is adapted to connect 10mm gooseneck microphones. Compatible models are Mipro MM-204 (385mm), MM-205 (485mm) or MM-206 (585mm).

The black-color base has a TALK/MUTE button and an LED diode that indicates the current status. The Mipro BC-100 is equipped with a 4-pin XLR input for connecting a gooseneck and a 3-pin balanced XLR output.

The device requires a 12-48V DC phantom power supply (condenser microphone). The compact BC-100 base weighs 618g. SQM Rental House recommends the Mipro MM-205 gooseneck microphone in addition to the set.
