Width (mm)	304.1
Height (mm)	14.9
Depth (mm)	212.4
Net weight (kg)	1.37

PRODUCT DESCRIPTION

SQM Rental House presents a great Apple notebook - MacBook Pro (A1708). The device is equipped with a 13.3-inch Retina screen with a resolution of 2560x1600 at 500 nits of brightness.

The heart of the space-gray MacBook Pro is the Intel Core i5-7360U dual-core processor clocked at 2.3GHz (Turbo Boost 3.6GHz) and 4MB of cache memory. 8GB LPDDR3 RAM with a frequency of 2133MHz and a super-fast SSD disk with a capacity of 128GB are responsible for a smooth operation of the device. Graphic experience is guaranteed by the efficient Intel Iris Plus Graphics 640 unit.

A special feature of the compact MacBook Pro is the aesthetic design in the case of connectors. The device uses two Thunderbolt 3 slots (USB-C), which are responsible for both charging the device, as well as support for DisplayPort 1.2 and USB 3.1 Gen 2. Data transfer via the Thunderbolt connector runs at 40Gbps.

In addition to the versatile Thunderbolt connectors, the MacBook Pro has a 3.5mm jack for headphones. There are also two built-in microphones, stereo speakers with a high dynamic range, or a FaceTime HD camera with 720p resolution. Ergonomics are provided by the comfortable keyboard and the intuitive Force Touch touchpad. MacBook Pro supports WiFi 802.11ac and Bluetooth 4.2 standards.

The lithium-polymer battery with a capacity of 54.5Wh provides for about 10 hours of continuous operation using WiFi (according to Apple specifications). We encourage you to check the availability of the notebook in the SQM Rental House!
