Set contains	Remote control
Set contains	Power cord

PRODUCT DESCRIPTION

The 60-inch LG 60UK6200 offers a crystal-clear, full-quality picture in 3840x2160 4K UHD resolution. LG 4K provides four times the resolution of other Full HD TVs. With a brightness of 350 cd/m², picture clarity is very accurate.

The three-dimensional color reproduction function, which ensures the minimization of color distortion and optimizes the quality of the color palette will delight any user.

TV ensures a high standard of connectivity - it is equipped among other things with three HDMI connections (including one ARC) and two USB-A 2.0 interfaces. It is also possible to hang the TV on the wall - all thanks to the VESA mounts with 300x300mm spacing.

Ease of use of the 60UK6200 is ensured by webOS 3.0, thanks to which all available functions on the LG Smart TV are intuitive and quick to operate. In addition, thanks to Intel Wireless Display technology, it is possible to wirelessly stream media content to the TV screen via Wi-Fi.

SQM Rental House encourages you to check the availability of the TV!
