The stand is characterized by its elegant design and aesthetic organization of cables - all cables are routed inside the flexible arm. The case is made of plastic (ABS), while the front panel is made of powder-coated stainless steel. The panel allows access to the Home button. The case is protected by a lock located on the rear panel.

The Bouncepad Flex can be mounted to the base in two ways:

- from below - in this case, the thickness of the base must not exceed 25 millimeters - the depth of the entire stand is 265 mm; - from above - in this case the base must be at least 34 millimeters thick - the depth of the entire stand is 271 mm.

Installation instructions are provided in the attachment below.

SQM Rental House recommends to you the Bouncepad Flex Maxi Case tablet stand in black color. We have also prepared for you the same model in white color.
