

PRODUCT NAME

EUROTRUSS FD34-T (500X500MM)

DESCRIPTION

Eurotruss FD34-T is a T-shaped corner truss element that offers the connection of truss elements in three directions at an angle of 90 degrees along two axes.

The 500mm long FD34-T element is made of EN AW 6082 (AlSiMgMn) durable alloy - it is characterized by excellent anodizing properties, good machinability, and durability. The dimensions of the main tube are 50x2mm, while the braces - 20x2mm. The solid element weighs 6 kilograms.

Available in black color, the FD34-T construction, like the rest of the FD34 series, is 290 millimeters wide and high. It is an extremely versatile product that will allow you to easily diversify your multidirectional design.

SQM Rental House recommends both Eurotruss FD34-T and other truss components available in our rental!

SPECIFICATIONS

Element	Corner
Color	Black
Material	EN AW-6082 T6
Length (mm)	500+500
Main tube diameter (mm×mm)	50x2
Braces (mm×mm)	20x2
Connection	CS1-CON
Width (mm)	290
Height (mm)	290
Net weight (kg)	6
