PRODUCT DESCRIPTION

MC-515 S is a professional ceiling holder for projectors from Maclean brand, which allows you to mount projectors weighing not more than 10 kilograms and with a spacing of mounting holes in the range from 130 to 320 millimeters.

The gray-color MC-515 S ceiling holder is equipped with three independent arms that allow panoramic rotation of the mounted projector by 360° and tilt by 15°.

The diameter of the mounting base is 85 millimeters, while the grip plate is 178 mm. The maximum projection of the ceiling mount is 170 millimeters.

The solid construction is universal - the handle can be used in most projectors, among others NEC, BenQ, Epson, Sony brands, etc.

SQM Rental House encourages you to rent a Maclean MC-515 S holder.
