

PRODUCT NAME

USB 3.0 - HDMI 4K VIDEO GRABBER

DESCRIPTION

The Video Grabber is an adapter for capturing video and audio from an HDMI source to AV devices - cameras, consoles, or smartphones - in outstanding 4K quality.

The widely compatible adapter works quickly and easily thanks to plug & play - simply connect your equipment via a USB port. The video grabber is equipped with an HDMI input and output, a high-speed USB 3.0 port, and audio input and output on 3.5mm jacks, which allow you to capture audio independently.

Video Grabber has a wide range of applications - thanks to a fast USB 3.0 port (5Gb/s), you can capture video from e.g. TV set to hard drive using OBS Studio. The recorder is also perfect for streaming or video conferences.

The maximum supported resolution is up to 4K (3840x2160) at 60Hz. The compact Video Grabber requires no additional power supply. Rent it today at SQM Rental House!
