Connectivity	Bluetooth 5.0
Connectivity	WiFi 802.11a/b/g/n/ac
Connectivity	2x2 MIMO
Width (mm)	30
Height (mm)	108
Depth (mm)	14
Net weight (kg)	0.052

PRODUCT DESCRIPTION

The Amazon Fire TV Stick 4K is a compact media player that lets you watch content in 4K quality - just plug it into your TV via the HDMI port.

The Fire TV Stick 4K is powered by a quad-core MTK8695 + MT7668 chipset (SoC) clocked at 1.7GHz. The player supports Dolby Atmos (EC3_JOC), Dolby Vision, H.265 (HEVC), or HDR10+ and HLG technologies. Lossless streaming of content in excellent quality is possible thanks to Bluetooth 5.0, WiFi 802.11 a/b/g/n/ac, and 2x2 MIMO. The player also allows you to stream content directly from your AV device.

The Stick is equipped with an HDMI port and a micro USB port for charging the device.

The Fire TV Stick 4K comes with remote control, which will allow you to control the player using, for example, voice commands (Alexa). The maximum

supported resolution is 4K (3840x2160) at 60fps.
