

PRODUCT NAME

FLASH PROFESSIONAL LED PIXEL 30W RGBW

DESCRIPTION

SQM Rental House presents the Flash Professional LED PIXEL 30W reflector, which is equipped with a 30W 4-in-1 COB LED.

The spotlight's RGBW light source provides a luminous flux of 1060 lumens. The device offers 6 channels in the DMX512 standard. It is possible to continuously dim from 0 to 100%, flash with a frequency from 1 to 20Hz, and to set the illumination angle at 50°.

The most important functionality of the PIXEL 30W LED spotlight is Auto-DMX, thanks to which the devices automatically configure themselves to work on subsequent DMX channels, taking into account the number of channels occupied by the previous device that is connected in series. This feature saves time on configuration and manually assigning DMX addresses - devices simply need to be connected in series via XLR (Daisy-chain) in the order in which they are to be set as virtual devices on the DMX controller and then power supplied.

DMX signal regeneration and electronic overheating protection functions have also been incorporated.

SPECIFICATIONS

Standard	DMX512
Diode type	1 x COB 4-in-1
Power (W)	30
Luminous flux (lm)	1060
Flash frequency (min/max; Hz)	1/20
Beam angle (°)	50
Supply voltage	100-245V AC; 50/60Hz
Max. power consumption (W)	91
Width (mm)	100
Protection Level (IP)	IP20
Height (mm)	100
Depth (mm)	180
Connectors	2 x XLR (3-pin, Input/output)
Connectors	2 x Neutrik powerCON (AC input/output)
Net weight (kg)	1
