Connectors	Lightning port
Width (mm)	174.1
Height (mm)	250.6
Depth (mm)	7.5
Net weight (kg)	0.49

Set contains

Power supply

PRODUCT DESCRIPTION

SQM Rental House recommends the 8th generation Apple iPad Wi-Fi tablet in silver color, which features a 10.2-inch Retina Multi-Touch IPS display with LED backlighting, a 32GB drive, and an 8827mAh lithium-polymer battery that offers up to 10 hours of internet browsing or video watching. The iPad's production year is 2020.

The brilliant 2160x1620 resolution Retina display (at 264 PPI) features an oleophobic coating that resists fingerprints, and support for the 1st generation Apple Pencil. The display delivers 500 nits of brightness. The 8th generation iPad features the A12 Bionic chipset with Neural Engine support for artificial intelligence and AR capabilities. It also features Touch ID, stereo speakers, and dual microphones.

Two cameras are responsible for photos and videos - the rear 8-megapixel camera with f/2.4 aperture, five-element lens, BSI sensor, and hybrid IR filter. It supports Live Photo, Panorama (up to 43 MP), HDR, automatic image stabilization, exposure control, continuous shooting, and self-timer. The front camera is a 1.2 MP FaceTime HD camera. Both cameras allow video recording in 720p quality, while the rear camera can create recordings in a slightly higher resolution - 1080p at 30 frames per second.

The tablet supports WiFi 802.11a/b/g/n/ac at 2.4 and 5 GHz, HT80 with MIMO, and Bluetooth 4.2. The 8th generation Wi-Fi iPad features a standard Lightning jack, a 3.5mm headphone jack, and a Smart Connector through which you can connect an Apple keyboard.
