PRODUCT DESCRIPTION

SQM Multimedia Support recommends the UNITEK V1109A splitter, which allows you to display video from a single HDMI source to 4 different outputs (such as monitor, TV or projector) in 4K resolution (3840x2160) at 30Hz. The splitter also supports 480p, 720p, 1080i and 1080p formats with 12-bit color depth. The V1109A is fully compatible with HDMI 1.4b format and HDCP 1.3 devices.

The Unitek V1109A supports Dolby TrueHD and DTS-HD for uncompressed 7.1 digital surround sound.

The manufacturer recommends using an HDMI cable that is no longer than 10 meters.
