

BROTHER DCP-T525W

TECHNICAL DETAILS

| | |
|-----------------------------|---------------------------------------|
| Print technology | Inkjet |
| Printer type | Colour |
| Functions | Print; Copy; Scan |
| Print speed (pages/min) | 10 (mono); 6 (colour) |
| Max. print resolution (dpi) | 1200x6000 (Windows) |
| Max. print resolution (dpi) | 1200x3600 (Mac) |
| Max. copy resolution (dpi) | 1200x1200 (mono); 1200x600 (colour) |
| Max. scan resolution (dpi) | 1200x2400 (interpolated: 19200x19200) |
| Paper tray input | 150 |
| Paper tray output | 50 |
| Connectors | 1 x USB-A 2.0 |
| Width (mm) | 435 |
| Height (mm) | 159 |
| Depth (mm) | 380 |
| Net weight (kg) | 7.3 |

PRODUCT DESCRIPTION

The DCP-T525W is a compact all-in-one (3-in-1) device with print, copy and scan functions. The Brother DCP-T525W uses wireless connectivity (Wi-Fi 802.11g/n) and also features an economical ink tank refill system.

The printer uses inkjet technology in color, supporting a maximum resolution of 1200x6000 dpi for Windows and 1200x3600 dpi for Mac. Print speed for an A4 sheet is 17 ipm* for monochrome and 9.5 ipm for color, while Silent Mode allows you to reduce print speed to reduce noise levels. The printer supports manual duplex printing.

The standard feeder supports 150 sheets for input and 50 sheets for output (80 g/m²). The maximum sheet density supported by the printer is 220 g/m² for the standard feeder and 300 g/m² for the manual feeder.

The DCP-T525W copies at 11.5 ipm (mono) and 4 ipm (color) at a maximum resolution of 1200x1200 dpi for mono and 1200x600 dpi for color. Responsible for the scanning function is the Contact Image Sensor (CIS) with support for resolutions up to 1200x2400 dpi or up to 19200x19200 dpi for interpolated resolution. Scan speeds are 3.35 seconds for A4 mono and 4.38 seconds for A4 color. Direct scanning to an email client, graphics program, text editor, or other files is possible.

The Brother DCP-T525W uses ink bottles with an efficiency of about 7500 pages (black ink) and 5000 pages (C/Y/M ink). The equipment is equipped with a control cockpit along with a 1-line LCD display and a Hi-Speed USB 2.0 Type-A port.
