PRODUCT DESCRIPTION

Iiyama TF4339MSC-B1AG is a 43-inch open-frame monitor with 12 touch points. The native resolution of the monitor is 1920x1080 - Full HD. TF4339MSC-B1AG is equipped with touch-through-glass technology that ensures accurate touch response.

The hardware uses capacitive touch technology - touch is registered by changing the electrical capacitance at the touched spot on the coating. The coating is highly durable and scratch resistant.

TF4339MSC-B1AG is equipped with three types of digital signal inputs - DisplayPort, DVI-D and 2 HDMI ports. The monitor has two built-in 8W speakers. The Iiyama works great in both horizontal and portrait orientations - 400x200mm VESA standard mounts allow the 23K unit to be mounted on a wall.

The 43-inch Iiyama TF4339MSC-B1AG open-frame monitor is a great solution as digital signage equipment. Available at SQM Rental House, the monitor is designed to work around the clock.
