

PRODUCT NAME

APPLE MACBOOK AIR 13.3" (2020)

DESCRIPTION

SQM Rental House recommends the super-fast 2020 Apple MacBook Air A2337 notebook, which comes with the excellent and powerful Apple M1 chipset.

The Apple M1 chipset includes an 8-core CPU, 7-core GPU, and a 16-core Neural Engine system. The 13.3-inch Retina IPS display with LED backlighting and 400 nits of brightness displays content at a native resolution of 2560x1600 pixels (WQXGA at 227 ppi) with scalable resolutions of 1680x1050, 1440x900, and 1024x640. True Tone technology ensures brilliant, vibrant colors.

The notebook offers 256 GB of SSD storage and 8 GB of unified RAM. It also supports 802.11ax Wi-Fi 6 and Bluetooth 5.0.

The MacBook Air has an extremely powerful 49.9Wh lithium polymer battery that allows for up to 15 hours of uninterrupted web browsing. Two Thunderbolt/USB 4 ports on the USB-C connectors provide charging, DisplayPort, Thunderbolt 3 (up to 40Gbps), and USB 3.1 Gen II (up to 10Gbps) connectivity. On the other side, a headphone port is located on a 3.5mm jack connector. HDMI, DVI, VGA, or Thunderbolt 2 outputs are supported by an adapter. Calls are made possible by a 720p FaceTime HD camera, Dolby Atmos stereo speakers, and a three-microphone array.
