Set contains	Desktop stand

PRODUCT DESCRIPTION

The Elgato Stream Deck MK.2 is a compact control panel that makes your streaming or video workflow more organized and efficient.

The Stream Deck MK.2 consists of 15 programmable LCD keys that can be used to trigger actions or tools - launch applications, adjust selected parameters, control presentations, videos, or audio levels - the possibilities are endless!

The device is programmable from the dedicated application level - the connection with a computer is possible via a USB-C port.

Each key can be assigned an icon of your choice, which you can create yourself or choose from a library of icons from the Stream Deck Store. With an extensive plug-in library, you can connect the Stream Deck MK.2 with OBS, YouTube, Spotify, and many other applications.

If you require more processes, you can turn the keys into folders to store any number of actions. The Stream Deck MK.2 also allows you to save unique key layouts as profiles, so you can instantly access the actions associated with a selected task. The panel can also be programmed to automatically switch profiles when you change applications.

The right workflow with the Elgato Stream Deck MK.2 during your streaming or realization is guaranteed! Rent a compact control panel today from SQM Rental House.
