PRODUCT DESCRIPTION

Sirui SH-25 is a video tripod with three sections and a head that guarantees smooth guidance - X-axis tilt is possible from -75° to +90° with locking thanks to a 75-millimeter diameter bowl, while Y-axis rotation is possible by 360°.

The maximum load capacity of the versatile tripod is 10 kg. The tripod's legs can be locked with a wing nut - the height is adjustable from 916 to 1900 millimeters. The length of the tripod when folded is 959 millimeters.

Available at SQM Rental House, the Sirui SH-25 video tripod is made of aluminum in black.
