The Floorstanding model is constructed from a case, a stand that ends at a 45-degree angle and a solid base that can be attached to the floor. The white-colored stand also looks aesthetically pleasing due to the wiring routed inside the stand. The housing in this version allows access to the front camera and home button, and is secured by a key lock.

The stand including the housing is 1145 mm high (where the housing itself is 174 mm high and 338 mm wide), while the diameter of the stand is 319 mm. The weight of the whole set is about 9.6 kg.
