

PRODUCT NAME

LINDY 3 PORT TOSLINK DIGITAL AUDIO SPLITTER (70480)

DESCRIPTION

SQM Multimedia Solutions recommends an audio splitter from Lindy that offers signal distribution from one TOSLINK optical digital audio input to three outputs of the same type.

The Lindy splitter supports two-channel LPCM 2.0, DTS and Dolby Digital signals. The transmission range is 40 meters for the output (using high-quality wiring) and 5 meters for the input. The maximum supported sampling frequency is 96 kHz. The device's operating temperature is between 0 and 40°C.

The Lindy digital audio signal splitter is powered by a Mini USB type B socket.
