

PRODUCT NAME

VOGEL'S PTS 1246 (TAB A7 10.4")

DESCRIPTION

Vogel's PTS 1246 is a tablet case compatible with the 2020 Samsung Galaxy Tab A7 10.4" tablet.

The steel construction is also equipped with VESA mounting holes with 100x100 millimeter spacing, so the case can be installed on a wall or stand. The working space available for the tablet screen is 136 millimeters wide and 227 millimeters high.

Vogel's PTS 1246 will be perfect for exhibitions, conferences or digital signage applications - the tablet placed in the case is secured with a key lock, and the silver-colored case itself looks aesthetically presentable with the device.
