

PRODUCT NAME

PROLIGHTS JET WASH19

DESCRIPTION

The Prolights Jet Wash19 is a compact and extremely fast moving wash head, which is equipped with 19 RGBW LEDs of 20W each and offers 540° pan movement and 233° tilt movement.

An undeniable advantage of the Jet Wash19 wash head is its variable colour temperature in a wide range from 2800 to 10000 K with advanced green correction in CCT mode.

The unit also has features such as tungsten lamp emulation, a linear crossfade channel from any white to any other colour, a virtual CTO filter, and a four-mode dimmer with a predefined curve from 0 to 100%.

The Prolights Jet Wash19 moving wash head is known for excellent, clear and saturated tones, as well as compactness and speed. Check it out and rent the unit at SQM Rental House!

SPECIFICATIONS

Standard	RDM
Standard	DMX512
Diode type	19 x RGBW Osram Ostar LED
Power (W)	19 x 20
Flash frequency (min/max; Hz)	1/30
Color temperature (K)	2800-10000
Dimmer (%)	0~100 (16-bit, electronic)
X-axis - Tilt (°)	233
Y-axis - Pan (°)	540
Supply voltage	100-240V AC; 50/60Hz
Max. power consumption (W)	350
Width (mm)	396
Set contains	Power cord
Set contains	1 x Snap hook
Set contains	1 x Slim aluminium clamp
Set contains	1 x Barndoor
Set contains	1 x Wire rope sling
Protection Level (IP)	IP20
Height (mm)	487

SPECIFICATIONS

Depth (mm)	250
Connectors	2 x Neutrik powerCON TRUE1 (Input/output)
Connectors	2 x Amphenol XLR (5-pin, Input/output)
Net weight (kg)	14.7
