

PRODUCT NAME

NEXT AUDIOGROUP T6W (WHITE)

DESCRIPTION

The T6W are two-way passive in-wall speakers in white color by NEXT audiogroup, which feature a built-in 100V transformer and 16Ω power tapping.

The T6W loudspeakers are great for outdoor applications in both distributed environments and indoor applications - halls, restaurants, shopping malls and conference rooms. The speakers are housed in a durable plastic enclosure that is weatherproof - the protection rating is IP65.

Thanks to the wide coverage angles, sound reception in a diffuse environment is perceived by each participant in exactly the same way. Low frequencies are reproduced using a 6-inch woofer with a polypropylene diaphragm, while high frequencies are based on a 1-inch titanium tweeter. Included with each T6W speaker is a U-mount, allowing the unit to be installed on a wall or ceiling.

The NEXT audiogroup T6W is equipped with a Phoenix (Euroblock) connector with four pins (IN+/IN- and LINK+/LINK-). The unit's back plate not only protects the speaker from adverse weather conditions, but also guarantees aesthetic cable routing.

Rent a pair of NEXT audiogroup T6W speakers in white from SQM Rental House for your event!

SPECIFICATIONS

Color	White
Speaker category	Wall speaker
Speaker type	Passive
Max. SPL (dB; @1m)	111
Frequency response (Hz)	60 ~ 18000 (-6dB)
Sensitivity	89dB (1W/1m)
LF transducer	1 x 6.5"
HF transducer	1 x 1"
Nominal coverage (h/v; °)	100/75
Continuous power (W)	80
Peak power (W)	160
Width (mm)	182
Protection Level (IP)	IP65
Height (mm)	362
Depth (mm)	226
Connectors	1 x Euroblock (4-pin)
Net weight (kg)	6.5
