

PRODUCT NAME

NEXT AUDIOGROUP T6 (BLACK)

DESCRIPTION

The NEXT audiogroup T6 are two-way passive wall-mounted speakers in black, which feature a built-in 100V transformer and 16Ω power tap.

The speakers are ideal for outdoor applications in both dispersed environments and indoor environments such as halls, restaurants, shopping malls and conference rooms. The speakers are housed in a stylish cabinet made of weatherproof plastic (IP65 rating) - the equipment can be used both indoors and outdoors.

Very wide angles of sound coverage allow to receive sound in a diffuse environment exactly the same way. Low frequencies are reproduced by a 6-inch woofer equipped with a polypropylene diaphragm, while the high-frequency section is based on a 1-inch diameter titanium tweeter. A U-shaped bracket is included, making it possible to install the speaker on a wall or ceiling.

Each NEXT audiogroup T6 speaker is equipped with a 4-pin Euroblock connector (IN+/IN- and LINK+/LINK-). The back plate not only protects the speaker from the weather, but also provides aesthetic cable routing.

Rent a pair of NEXT audiogroup T6 speakers in black from SQM Rental House for your event!

SPECIFICATIONS

Color	Black
Speaker category	Wall speaker
Speaker type	Passive
Max. SPL (dB; @1m)	111
Frequency response (Hz)	60 ~ 18000 (-6dB)
Sensitivity	89dB (1W/1m)
LF transducer	1 x 6.5"
HF transducer	1 x 1"
Nominal coverage (h/v; °)	100/75
Continuous power (W)	80
Peak power (W)	160
Width (mm)	182
Protection Level (IP)	IP65
Height (mm)	362
Depth (mm)	226
Connectors	1 x Euroblock (4-pin)
Net weight (kg)	6.5
