PRODUCT DESCRIPTION

The Iiyama TE8602MIS-B1AG is a touchscreen monitor equipped with an 86-inch IPS LED matrix. The matrix is protected by a 4-millimeter-thick AG anti-reflective coating, which further ensures the durability and longevity of the device.

The TE8602MIS-B1AG offers a resolution of 3840x2160 pixels (4K UHD), a maximum brightness of 400 nits and excellent viewing angles - 178°/178°. The monitor also features 20 HID touch points with +-2 mm accuracy. Touch connects on a plug-and-play basis (via USB port).

The device is based on iiWare 8.0, which offers a smooth web browser, file manager, WPS Office, as well as the Screen Share Pro feature supporting AirPlay, Chromecast, or Miracast. This feature allows instant streaming of media files from another device. The hardware also features 16GB of internal memory, so you can seamlessly play presentations, videos, slideshows and text files.

The TE8602MIS-B1AG is equipped with digital signal inputs (two HDMI ports supporting 4K@60Hz resolution) and an analog signal input (VGA supporting Full HD@60Hz resolution). Four USB-A ports allow the connection of peripheral devices. The device is compatible with WiFi 802.11 a/b/g/n/ac and Bluetooth 2.1/3.0/4.2/5.0.

The sides and top of the monitor's bezels are 16mm wide, while the bottom is 44mm wide. Available for rent from SQM Rental House, the monitor can be hung on a wall or stand thanks to its VESA 800x600mm mounting spacing.
