Power supply	MicroUSB (USB/Adapter)
Width (mm)	51.9
Height (mm)	51.9
Depth (mm)	13.49
Net weight (kg)	0.0391

PRODUCT DESCRIPTION

Chromecast 2 is a multimedia player from Google that will transform any TV with an HDMI port into the Smart TV device with Full HD (1920x1080) resolution.

Google Chromecast 2 is simple and quick to set up, and its compact and flexible dimensions allow you to easily connect the device via the HDMI port, without unnecessary space planning. The device is characterized by smooth streaming and a guarantee of Full HD quality.

Chromecast 2 is controlled via an iOS/Android application that allows you to quickly configure and connect your device to a WiFi network. The equipment offers access to YouTube, HBO Go, Spotify, or allows you to slideshow a great number of photos (both from private resources and from Google Graphics).

Chromecast 2 offers WiFi connectivity in the 802.11b/g/n standard on 2.4 and 5GHz frequency bands. In addition, an Ethernet connection is also possible (with the use of an optional adapter). The device weighs less than 40g and is available from SQM Multimedia Support immediately.
