Depth (mm)	900

PRODUCT DESCRIPTION

SQM Multimedia Solutions recommends the KraftMann double tripod projection screen from the DiplomaScreen series.

The front projection screen offers a working area of 2750x1550 mm in 16:9 format - the net area is 124 inches. The model uses a four-layer MattWhiteHD projection canvas in white with a 160° field of view and 900 g/m² density. The gain reflectance is 1.0.

The black border used in the screen is 3 centimeters wide. The cassette with a hexagonal cross-section is made of powder-coated aluminum profile in white.

The screen will be perfect for mobile presentations - it is equipped with a quick mounting system, and can be installed independently to the wall or ceiling.
