

PRODUCT NAME

MULTIMEDIA INFOKIOSK 55"

DESCRIPTION

A multimedia information kiosk in the form of a totem is an interactive device, which in an impressive way allows you to obtain information appropriate to the place - it is perfect for digital signage applications, as well as for presenting your offer during exhibitions or displaying commercial information during other events. In addition, the totem allows you to support applications that require user interaction, thus creating an impressive and effective advertising medium.

The freestanding totem offered at SQM Rental House is equipped with a 55-inch multi-touch screen using capacitive technology. The LED-backlit screen with 4K UHD (3840x2160 pixels) resolution and 450 nits brightness additionally offers excellent viewing angles (178 degrees horizontally and vertically), so you can present your interactive content in pristine quality. Sound is processed by built-in two 5W speakers.

The Infokiosk is powered by a built-in mini-computer with Windows operating system. The unit consists of an Intel i5 processor with a base frequency of 2.7GHz, 4GB of DDR3L RAM, an integrated Intel HD Graphics 6100 GPU and a 128GB SSD. The totem can be networked with the built-in network card and supported WiFi 802.11 b/g/n protocol.

The 55-inch multimedia totem is equipped with 4 USB-A ports - two each of 3.0 and 2.0 standard - as

well as HDMI digital output and VGA analog output. The maximum power consumption for the device is 180W (stand-by consumption is less than 5W).

Another feature that sets our 55-inch multimedia info kiosk above the rest of media of this type is the visual aesthetics - the slim screen with a depth of just 21mm, narrow bezels (32.4mm each from the top and left and right sides) and the black color work well together, making the totem a complete device.

Rent a 55" interactive multimedia info kiosk at SQM Rental House!
