

P2.06 / MODULED / LEFT CORNER

TECHNICAL DETAILS

Pixel pitch (mm)	2.06
Technology	MicroX X-GOB
Technology	True Black SMD1010
Cabinet width (mm)	496
Cabinet height (mm)	496
Cabinet depth (mm)	58
Resolution (px×px)	240x240
Max. brightness (cd/m²)	≥1000
Refresh Rate (Hz)	1920-3840
Protection Level (IP)	IP20
Working Environment	indoor
Maintenance	Front / Rear
Max. power consumption per cabinet (W)	180
Net weight (kg)	7.5

PRODUCT DESCRIPTION

moduLED P2.06 is a unique LED screen designed to work with modular frame systems, which are used to build eco-friendly exhibition stands. In this offer, the left corner of the screen is designated for rental, which allows you to create unique structures - corners, cubes, or any other shape at 90°.

The moduLED screen is distinguished by its excellent image quality. Although the pixel spacing is 2.06 mm, in practice the quality is closer to P1 screens.

The cabinet was made using X-GOB technology, which is defined by the lack of use of masks - the surface of the screen module is sealed in a special adhesive, which results in increased resistance to damage, dust, as well as light reflection. The assembly of the screen was performed using the True Black SMD1010 (1x1mm) method.

The moduLED's native resolution is 240x240 pixels, which, combined with a maximum brightness of over 1000 nits, HDR10 image technology, or excellent viewing angles (160° both vertically and horizontally), makes the moduLED P2.06 screen an impeccable way to present content at your stand.

The screen's dimensions are 496x496 mm. It is worth mentioning that it is fully compatible with 55 or 62 mm thick exhibition system frames.

moduLED screens are also characterized by great ease of servicing - full access is possible from the front, so that in order to pull out one module, card or power supply, it is not necessary to disassemble the entire screen. In comparison with the straight cabinet, the left and right corner weighs 7.5 kilograms. The maximum power consumption for one cabinet is about 180W (~730W/m²).

Rent a moduLED P2.06 screen dedicated to modular frames at SQM Rental House and experience the true power of multimedia!
