

ALUSTAGE AL34100 QUADRO 290A TRUSS (1000MM)

TECHNICAL DETAILS

Element	Straight truss
Color	Black
Length (mm)	1000
Material	EN AW-6082 T6
Main tube diameter (mm×mm)	50x2
Braces (mm×mm)	20x2
Width (mm)	290
Height (mm)	290
Net weight (kg)	6.1
Connection	SZ02.10

PRODUCT DESCRIPTION

Alustage AL34100 is a quadro (straight) truss with a length of 1000 mm, which belongs to the 290A system and AL3 series. The weight of the element is 6.1 kg.

Elements from the 290A system are manufactured from hardened EN AW 6082 T6 (AlSiMgMn) alloy, which is known for its very good machinability, high strength and good susceptibility to anodizing.

Trusses from the 290A system are made of 50x2 mm diameter tubes, 20x2 mm braces and are equipped with SZ02.10 connecting socket. Alustage systems are successfully used as elements of structures used at exhibitions, stages, events, as elements of suspensions for telebims, or as frames for LED screens, projection screens and sound gates. They are also perfect as frames for advertising or stage decorations.

Each component is certified and periodically inspected to ensure safety.
