

PRODUCT NAME

ALUSTAGE AL34050 QUADRO 290A TRUSS (500MM)

DESCRIPTION

Alustage AL34050 is a straight truss (quadro type) with a length of 500 mm, belonging to the 290A system and AL3 series. The weight of the element is 4.1 kg.

Elements from the 290A system are manufactured from hardened EN AW 6082 T6 (AlSiMgMn) alloy, which is known for its very good machinability, high strength and good susceptibility to anodizing.

Trusses from the 290A system are made of 50x2 mm diameter tubes, 20x2 mm braces and are equipped with SZ02.10 connecting socket. Alustage systems are successfully used as elements of structures used at fairs, stages, events, as elements of suspensions for big screens, or as frames for LED screens, projection screens and sound gates. They are also perfect as racks for advertising or also for stage decorations.

Each component is certified and periodically inspected to ensure safety.

Rent Alustage truss elements from SQM Rental House for your event!

SPECIFICATIONS

Element	Straight truss
Color	Black
Material	EN AW-6082 T6
Length (mm)	500
Main tube diameter (mm×mm)	50x2
Braces (mm×mm)	20x2
Connection	SZ02.10
Width (mm)	290
Height (mm)	290
Net weight (kg)	4.1
