

ALUSTAGE AL34025 QUADRO 290A TRUSS (250MM)

TECHNICAL DETAILS

Element	Straight truss
Color	Black
Length (mm)	250
Material	EN AW-6082 T6
Main tube diameter (mm×mm)	50x2
Braces (mm×mm)	20x2
Width (mm)	290
Height (mm)	290
Net weight (kg)	2.5
Connection	SZ02.10

PRODUCT DESCRIPTION

Alustage AL34025 is a straight truss (quadro type) with a length of 250 mm, belonging to the 290A system and AL3 series. The weight of the element is 2.5 kg.

Elements from the 290A system are manufactured from hardened EN AW 6082 T6 (AlSiMgMn) alloy, known for its excellent machinability, high strength and good anodizing susceptibility. The tubes used in trusses from the 290A system have a diameter of 50x2 mm, while the braces have a diameter of 20x2 mm. The system is equipped with a connecting socket SZ02.10.

Alustage trusses are perfect for use as stage technology systems at exhibitions, stages or events. They are also excellent suspension elements for telebims, LED screens, projection screens and sound gates. The elements can also be used as frames for advertisements or stage decorations.

Each element is certified and periodically inspected to ensure safety.
