

PRODUCT NAME

ALUSTAGE AL34021 QUADRO 290A TRUSS (210MM)

DESCRIPTION

Alustage AL34021 is a straight truss (quadro type) with a length of 210 mm, belonging to the 290A system and AL3 series. The weight of the section is 2.35 kg.

Elements from the 290A system are manufactured from hardened EN AW 6082 T6 (AlSiMgMn) alloy, known for its excellent machinability, high strength and good susceptibility to anodizing.

The tubes used in trusses from the 290A system are 50x2 mm in diameter, and the braces are 20x2 mm in diameter. The system is equipped with a SZ02.10 connection socket. Alustage trusses are perfect as stage technology systems for exhibitions, stages or events. They are also excellent suspension elements for telebims, LED screens, projection screens, as well as sound gates. The elements can also be used as advertising stands or stage decorations.

Each element is certified and periodically inspected to ensure safety.
