

ALUSTAGE AL32050 DUO 290A TRUSS (500MM)

TECHNICAL DETAILS

| Element | Straight truss |
|----------------------------|----------------|
| Color | Black |
| Length (mm) | 500 |
| Material | EN AW-6082 T6 |
| Main tube diameter (mm×mm) | 50x2 |
| Braces (mm×mm) | 20x2 |
| Height (mm) | 290 |
| Net weight (kg) | 1.5 |
| Connection | SZ02.10 |

PRODUCT DESCRIPTION

Alustage AL32050 is a duo straight truss with a length of 500 mm, which belongs to the 290A system and AL3 series. The weight of the element is 1.5 kg.

Elements belonging to the 290A system are manufactured from hardened EN AW 6082 T6 (AlSiMgMn) alloy, which is known for its very good machinability, high strength and good susceptibility to anodizing.

The 290A system trusses are made of 50x2 mm diameter tubes and 20x2 mm diameter braces. The truss is equipped with a SZ02.10 connection socket.

Alustage systems are perfect as structural elements for exhibitions, stages and events. These elements are adapted for use as suspensions for telebims, LED screens, projection screens, or sound and lighting gates. They also work great as frames for advertising or stage decorations.

Each component is certified and periodically inspected to ensure the maximum safety in operation.

Choose your truss set and rent the elements at SQM Rental House!
