PRODUCT DESCRIPTION

The Iiyama ProLite LH8654UHS-B1AG is a high-quality 85.6-inch monitor that is designed for exhibition and digital signage applications. The monitor offers an IPS panel with 4K Ultra HD resolution (3840 x 2160 pixels) and a brightness of 500 nits to display rich detailed content.

The LH8654UHS-B1AG is equipped with a range of ports - including 3 HDMI 2.0 inputs, DisplayPort input and output, DVI-I input, as well as audio and USB ports - for easy connection of external devices. The built-in Android operating system allows you to customize the device to suit your needs, and the built-in CMS guarantees full control over the displayed content. The smoothness of the presented content is ensured by the FailOver function, which automatically detects input sources by switching signals when the default input is not available. Wi-Fi protocol allows content to be delivered remotely over the network (or via the RJ45 port).

The monitor is equipped with VESA-standard mounting slots with 600x400 mm spacing, allowing the unit to be mounted on a stand or on a wall. The image can be displayed both horizontally and vertically. Sockets with 100x100 mm spacing allow installation of a mini PC.

The Iiyama ProLite LH8654UHS-B1AG monitor is an excellent choice for digital signage applications - rent the equipment at SQM Rental House.
