

PRODUCT NAME

APPLE TV 4K 64GB (2021, 2 GEN.)

DESCRIPTION

Apple TV 4K Wi-Fi with 64GB of internal storage (2nd generation - 2021 MXH02MP/A), is an advanced multimedia device that offers an exceptional 4K HDR visual and audio experience. Equipped with an A12 Bionic chip, this second-generation model delivers outstanding performance, faster graphics processing and smoother application performance. The 64GB of internal memory allows you to store plenty of apps, games and other multimedia content, making it the perfect home entertainment center.

Apple TV 4K supports the latest visual standards, such as Dolby Vision, and advanced sound technologies, including Dolby Atmos, offering a full cinematic experience at home. The device features several interfaces, including an HDMI 2.1 port that supports the latest image transmission standards, and an Ethernet port for a stable wired connection. In addition, the device features a Lightning connector for charging the Siri Remote, and Wi-Fi 6 (802.11ax) for fast and stable wireless connectivity.

The Siri Remote, which is part of the set, features a new touch-sensitive surface for precise control over the content being played. With the Siri voice assistant, operating the device becomes even more intuitive. The Apple TV 4K integrates with the Apple ecosystem, supporting AirPlay and HomeKit, allowing easy connection to other Apple devices and control of the smart home.
