

P2.6 / YESTECH MG6S PRO CORNER / 45° CABINET

TECHNICAL DETAILS

Pixel pitch (mm)	2.6
Technology	SMD1515
Cabinet width (mm)	500
Cabinet height (mm)	500
Cabinet depth (mm)	73
Inner angle of cabinets connection (°)	45
Resolution (px×px)	192x192
Max. brightness (cd/m ²)	1000
Viewing angles (h/v; °)	160/160
Refresh Rate (Hz)	1920-3840
Type of connection	Seetronic
Protection Level (IP)	IP50
Working Environment	indoor
Maintenance	Front / Rear
Max. power consumption per cabinet (W)	150
Net weight (kg)	5.9

PRODUCT DESCRIPTION

The Yestech MG6S Pro P2.6 is an advanced LED corner screen, featuring a pixel spacing of only 2.6 mm and the structural ability to connect the cabinets between each other at angles of up to 45 degrees. In addition, the screen can be combined with standard, straight MG6S cabinets.

The resolution of one cabinet is 192x192 pixels (96x96 pixels per module), which, combined with a brightness of up to 1,000 nits and a pixel spacing of 2.6 millimeters, guarantees excellent image quality.

Thanks to its state-of-the-art LED encapsulation technology (SMD1515), the MG6S Pro offers excellent performance that makes the displayed content crisp even in lighting conditions. In addition, the MG6S offers wide viewing angles (160 degrees horizontally and vertically), making the screen perfect for a variety of indoor events and presentations.

The screen features not only excellent image quality, but also flexibility in applications. Thanks to the ability to combine modules into different configurations, the MG6S Pro allows you to create custom-shaped screens, making it ideal for stage, event or advertising applications.
