PRODUCT DESCRIPTION

The Iiyama LH7554UHS-B1AG 75-inch 4K UHD monitor is an advanced digital signage device designed for professional use around the clock. It features an Android operating system, FailOver mode and an Intel® SDM slot.

This Iiyama professional display offers a high brightness of 500 cd/m² for uninterrupted operation in landscape or portrait orientation 24 hours a day, 7 days a week. Thanks to its versatility, it can be customized to meet various industry needs. The Android operating system makes it easy to customize the monitor by installing the appropriate applications.

The built-in CMS (content management system) allows remote and secure control of displayed content and advertisements. The Intel® SDM socket provides flexibility with the option of an embedded computer, while ensuring security and full control. Signal FailOver ensures that content is always actively displayed through selected inputs.

The Iiyama LH7554UHS-B1AG series of monitors with Wi-Fi capability are ready for remote content delivery over the network or enable LAN control. It's a complete digital signage solution that offers high performance and reliability, ideal for critical environments. Rent a monitor at SQM Rental House!
