

PROLIGHTS ASTRA HYBRID330

TECHNICAL DETAILS

Standard	RDM
Standard	sACN
Standard	DMX512
Standard	ArtNet
Standard	CRMx
Diode type	1 x High-power white LED
Power (W)	330
X-axis - Tilt (°)	270
Y-axis - Pan (°)	540
Zoom ratio	3° - 50°
Luminous flux (lm)	8493 (3°) - 15272 (50°)
Connectors	2 x Neutrik Art-Net RJ45 (Input/output)
Connectors	2 x Neutrik powerCON TRUE1 (Input/output)
Connectors	2 x Amphenol XLR (5-pin, Input/output)
Protection Level (IP)	IP20
Max. power consumption (W)	517
Width (mm)	411
Height (mm)	638
Depth (mm)	244
Net weight (kg)	21.6

PRODUCT DESCRIPTION

The Astra Hybrid330 IP is a mobile hybrid head that combines high power, compact size and light weight (21.6 kg).

Using a 140-millimeter lens and advanced optics, the Astra Hybrid330 offers smooth zoom from 3° to 50°, which, combined with an efficient 330 W LED light source, provides both an intense beam and precise spotlight.

The Astra Hybrid330 luminaire stands out for its versatility with a variety of features such as spatial effects with dense parallel beam and sharply defined projection textures, a linear CMY system, three color dials, an animation dial, dual overlapping prisms, frost and two gobo dials. The Astra Hybrid330 features 8 rotating gobos (+ open, interchangeable, indexing gobos) and 11 fixed gobos.

Designed with lighting professionals in mind, the Astra Hybrid330 offers not only impressive capabilities, but also reliable performance. Thanks to its state-of-the-art LED technology and intelligent thermal management system, it ensures stable operation even during long hours of intensive use.

Let your stage shine with a new light - rent a Prolights Astra Hybrid330 lamp from SQM Rental House and experience a revolution in event lighting!
