

CREATUBE PIXELBAR SQUARE (300MM)

TECHNICAL DETAILS

Technology	SK6812
Technology	5050RGB
Diode type	LED
Length (mm)	300
Power (W)	3.6
Beam angle (°)	120
IC driver	CL05
Connectors	2 x DMX (4-pin)
Protection Level (IP)	IP65
Supply voltage	24V DC
Width (mm)	18
Height (mm)	37
Net weight (kg)	0.22

PRODUCT DESCRIPTION

The lighting method known as creaTUBE Pixelbar Square represents an innovative approach, focusing on an 18.5x18 mm rectangular LED strip. With a variety of connectors (straight 180°, angled 120° and three-armed) it is possible to form unusual shapes. The creaTUBE Pixelbar Square variants offered by SQM Rental House are available in lengths of 1000, 500 and 300 mm.

Due to its strip-based design, the creaTUBE Pixelbar Square emits light at an angle of 120°, presenting a rich palette of intense RGB colors. The installation of this type of lighting is characterized by great flexibility - it can be placed on trusses, in a free-standing manner or on floor stands.

The LED strips can be connected via DMX protocol and controlled via art.net protocol using a special controller.

The 300mm long creaTUBE Pixelbar Square lighting is perfect for trade show applications, product highlighting, on stages and as a decorative element.
