CREATUBE PIXELBAR SQUARE (500MM)

TECHNICAL DETAILS

Technology	5050RGB
Technology	SK6812
Diode type	LED
Length (mm)	500
Power (W)	6
Beam angle (°)	270
IC driver	CL05
Connectors	2 x DMX (4-pin)
Protection Level (IP)	IP65
Supply voltage	24V DC
Width (mm)	18
Height (mm)	37
Net weight (kg)	0.32
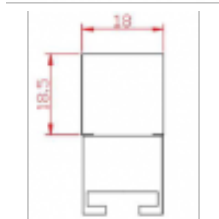

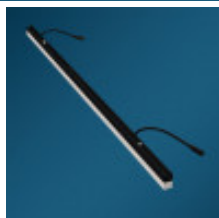

PRODUCT DESCRIPTION

The lighting method called creaTUBE Pixelbar Square is an innovative solution that consists of a rectangular LED strip measuring 18.5x18 mm. Thanks to the wide range of available connectors (straight 180°, angled 120° and three-armed), it is possible to create a variety of unusual shapes. The creaTUBE Pixelbar Square variants offered by SQM Rental House come in lengths of 1000, 500 and 300 mm.

Due to its strip-like design, creaTUBE Pixelbar Square emits light in a 270° range, presenting intense colors from a wide RGB palette. Installation of this lighting is very flexible - it can be placed on trusses, freestanding or on floor stands.

The LED strips can be linked together via DMX protocol and controlled via art.net protocol via a dedicated controller.

The creaTUBE Pixelbar Square lighting, with a length of 500 mm, is ideal for trade show applications, product backlighting, on stages and for decorative purposes.
