PRODUCT DESCRIPTION

The Astra Wash19Pix is a mobile LED WASH head created for professional use in trade show applications. The Astra Wash offers superior brightness and advanced features for creating effects.

Built with a set of 19 Osram RGBW LEDs at 40 W each and an external pixel ring, this light is equipped with a highly efficient optical system that allows an adjustable zoom range from 4° to 54°. This makes it extremely versatile in a variety of use scenarios.

The Astra Wash19Pix allows independent control of each pixel, offering a range of built-in effects and providing access to precise white and colour control. This is all made possible with support for DMX, W-DMX, Art-Net, sACN and RDM protocols.
