| Depth (mm)              | 122.9  |
| Net weight (kg)         | 0.24   |

### PRODUCT DESCRIPTION

Blackmagic Mini Converter Sync Generator is a tool designed to create a reference signal for studio-oriented video equipment. It is perfect for smaller studios and outdoor video broadcasting. It features 6 quartz-stabilised BNC outputs, each of which generates a video reference signal.

It creates a signal compatible with the High Definition Tri-Sync TV standard or standard Blackburst resolution, allowing studio equipment to be synchronised.
