

APPLE IPAD PRO 11.0" 2022 (SPACE GRAY, 4TH GEN A2759)

TECHNICAL DETAILS

Category	Tablet
Diagonal (in)	11
Resolution (px×px)	2388x1668
Color	Space gray
Year of production	2022
Version	Wi-Fi
Storage (GB)	128
Video	4K, 1080p, 720p@60fps
Sensors	Face ID; LiDAR scanner; Three-axis gyro; Accelerometer; Barometer; Light sensor
Battery	28.65Wh Li-Po
Chipset	Apple M2 (8-core CPU, 10-core GPU, 16-core Neural Engine)
Connectors	1 x Thunderbolt / USB 4
Width (mm)	178.5
Height (mm)	247.6
Depth (mm)	5.9
Net weight (kg)	0.466
Set contains	20W USB-C charger
Set contains	USB-C cable (1m)

PRODUCT DESCRIPTION

The 2022 Apple iPad Pro 11", model A2759, in Space Gray, is a high-tech device designed for the most demanding users. The tablet features an 11-inch Liquid Retina screen with ProMotion, True Tone technology and P3 wide color gamut, providing exceptional image quality, smooth motion and realistic color reproduction. The screen features a resolution of 2388 by 1668 pixels, giving a density of 264 pixels per inch, and a brightness of up to 600 nits, allowing comfortable use even in bright environments.

The iPad Pro 11" 2022 is powered by Apple's M2 chip, which has an 8-core processor and a 10-core graphics chip. The processor provides a 15-percent

increase in performance over its predecessor, which translates into smooth performance even with the most advanced graphics and computing applications. Thanks to the 16-core neural engine, up to 15.8 trillion operations per second are possible, significantly speeding up machine learning processes. The device is also equipped with 8GB of RAM, which can be expanded up to 16GB in versions with larger internal memory for smooth multitasking. Available storage capacity variants include 128GB, 256GB, 512GB, 1TB and 2TB, allowing you to store large amounts of data without worrying about running out of space.

The iPad Pro supports Wi-Fi 6E technology, which guarantees faster and more stable wireless connections. There is also a 5G-enabled version for super-fast mobile internet. The built-in 28.65 Wh lithium-polymer battery provides up to 10 hours of web surfing or movie watching on a single charge. The tablet charges via a Thunderbolt / USB 4-enabled USB-C port for high-speed data transfer and connecting a variety of accessories.

The Apple iPad Pro 11" 2022 features a camera and scanner system that allows you to take photos, record videos and use augmented reality (AR) technology. The 12 MP main camera has an f/1.8 aperture and offers 4K video recording at up to 60 frames per second. An additional 10 MP ultra-wide-angle camera with an f/2.4 aperture and 125-degree viewing angle enables the capture of wide shots. A 12 MP TrueDepth front camera with an ultra-wide 122-degree viewing angle and Center Stage function automatically adjusts the frame during video calls by tracking the user's movement. The device also features a LiDAR scanner that enables precise distance measurements and supports AR applications.

The tablet runs on iPadOS, which offers an intuitive user interface and support for the second-generation Apple Pencil and Magic Keyboard, making the iPad Pro a versatile tool suitable for both creative work and professional office applications. In addition, the device's case is made of 100% recycled aluminum, in line with Apple's environmental policy.
