

PRODUCT NAME

KINETICQ / LIGHTING SYSTEM / DMX WINCH

DESCRIPTION

KineticQ is a kinetic lighting system that not only surprises, but mesmerises with its effectiveness.

The sphere supports DMX512 and DIM4 standards. The LED sphere has an innovative and aesthetically pleasing heat-resistant plastic shell and a tall metal body. Inside are 36 low-power consumption 3-in-1 RGB LED bulbs.

It can be used independently or online. The KineticQ sphere supports linear dimming, rainbow effect, strobe, pulse (20 flashes per second). A wide colour palette guarantees the desired effect.

The extraordinary capabilities of KineticQ kinetic globes make them an integral part of any event, adding a unique flair. Hire from SQM Rental House today!

SPECIFICATIONS
